MICHELIN® X® TWEEL® TURF CASTER

FOR ZERO TURN RADIUS MOWERS

No Maintenance – MICHELIN® X® TWEEL® TURF CASTER is one single unit, replacing the current front tire/wheel assembly on zero turn radius mowers. There is no air pressure to maintain and no need to carry spare tires, tools, or repair kits.

No Compromise – MICHELIN X TWEEL TURF CASTER has full width poly-resin spokes which dampen the ride for enhanced operator comfort and navigation over curbs and other bumps. The vertical stiffness maintains a consistent height for a uniform cut. And, the high performance poly-resin tread provides cut and tear resistance.

No Downtime – MICHELIN X TWEEL TURF CASTER performs like a pneumatic tire, but without the inconvenience and downtime associated with flats.
